2ND EDITION

Understanding Comparative Politics

A Framework for Analysis

Mehran Kamrava, California State University, Northridge, USA

'This new edition of Mehran Kamrava's *Understanding Comparative Politics* exemplifies the changes that comparative political analysis has undergone in the last 15 years. Kamrava examines current and past approaches to the study of comparative politics, and proposes a new framework for analysis. Focusing on twin themes - revolution and democratisation - he examines state and social institutions, how they interact, and the context provided by the political cultures from whence they operate. It will be essential reading for all students of comparative politics.' – Professor Jeffrey Haynes, London Metropolitan University, UK

Although analytically different in its arguments and emphasis from the current "Mainstream" genre of literature on comparative politics, this study is a logical outgrowth of the scholarly works of the last decade or so. Offering a concise and detailed synthesis of existing comparative frameworks that, up to now at least, have encountered analytical shortcomings on their own, it will be essential reading for all students of comparative politics.

Selected Contents: 1. Introduction **Part 1: Approaches to Comparative Analysis** 2. Theories of Comparative Politics: A Brief Overview **Part 2: The Comparative Study of Politics** 3. A Synthesis 4. States and Social Institutions 5. A Framework for Analysis **Part 3: State in Comparative Perspective** 6. Democratic States 7. Non-Democratic States **Part 4: State-Society Interactions: Revolution & Democratization** 8. Revolutions 9. Democratization Conclusion

Editors: **Dr Gordon Crawford**, University of Leeds, UK, **Jeffrey Haynes**, London Metropolitan University, UK and **Andrew Moran**, London Metropolitan University, UK

Volume 15, 2008, 5 issues per year

Democratization aims to promote a better understanding of democratization - defined as the way democratic norms, institutions and practices evolve and are disseminated both within and across national and cultural boundaries. While the focus is on democratization viewed as a process, the journal also builds on the enduring interest in democracy itself and its analysis. The emphasis is contemporary and the approach comparative, with the publication of scholarly contributions about those areas where democratization is currently attracting considerable attention world-wide.
