2ND EDITION

Terrorism Today, 2nd Edition

Christopher C. Harmon, Marine Corps University, Quantico, USA

Series: Cass Series on Political Violence

'... a masterly survey of the big picture of world violence. . . provides many useful strategy recommendations which Western governments would do well to study.' - *Times Literary Supplement*

'Considering the continuing challenge that terrorism will undoubtedly pose in the years to come, Harmon's book offers a welcome introductory survey of the contemporary reality of terrorism.' - *Journal of Contingencies & Crisis Management*

The new edition of this best-selling insight into terrorism today has been fully updated and revised to include what the author terms the new 'militant Moslem international.'

Drawing directly on the words and ideas of terrorists themselves, this book is an examination of patterns, current trends and future threats in terrorism worldwide. It explores the ideology and psychology, the politics and policies, the strategies and operations of many active small groups and major insurgencies. It includes a stimulating discussion of the problems of counter-terrorism, making several key recommendations.

Terrorism Today will be essential reading for students of terrorism, counter-insurgency and international security.

TEXTBOOK

Walking Away from Terrorism

Accounts of Disengagement
from Radical and Extremist Movements

John Horgan, Pennsylvania State University, USA

This book focuses on identifying the tipping points for disengagement from terrorism, and is informed by the detailed, illuminating and sometimes extraordinary accounts that the terrorists themselves offer about the reasons why they left terrorism behind.

The book explores four major issues:

- current knowledge on disengagement and de-radicalization
- what terrorists themselves say about their experiences of disengagement, particularly how exit routes became expressed, why they wanted to leave and what happened to them once they found themselves as ex-terrorists
- what lessons and implications can be learned from accounts of disengagement
- what implications effective counter-terrorism initiatives have for policy, law enforcement, intelligence, civil society and other relevant parties.

Walking Away from Terrorism provides a model of disengagement and de-radicalization; a detailed analysis of the implications of the model for informing responses, and a strategic, systematically presented, point-by-point and multi-level guide for policy makers for facilitating de-radicalization processes at a variety of political, social and legal levels.

This book will be essential reading for all students of terrorism studies and highly recommended for students of international security, international relations and politics.

Selected Contents: 1. Current Trends in Terrorism 2. Why Studying Disengagement is Important 3. Northern Ireland – The Ulster Volunteer Force 4. The Republic of Ireland – Oglaiha na hEireann (a.k.a. NEW

Understanding Terrorism and Political Violence

The Life Cycle of Birth, Growth, Transformation, and Demise

Dipak K. Gupta, San Diego State University, USA

This book explains the lifecycle of terrorist organizations from an innovative theoretical perspective, combining economics with social psychology. It provides a new approach to understanding human behaviour in organized society, and then uses this to analyze the forces shaping the lifecycle of violent political

movements.

Economic and rational-choice theorists assume that human beings are motivated only by self-utility, yet terrorism is ultimately an altruistic act in the eyes of its participants. This book highlights the importance of the desire to belong to a group as a motivating factor, and argues that all of us face an eternal trade-off between selfishness and community concern. This hypothesis is explored through four key groups; the IRA in Northern Ireland, Al Qaeda, Hamas, and the Naxalites in India. Through this, the book analyzes the birth, growth, transformation and demise of violent political movements, and ends with an analysis of the conditions which determine the outcome of the war against terrorism.

Understanding Terrorism and Political Violence will be essential reading for advanced students of terrorism studies and political science, and of great interest to students of social psychology and sociology.

Leaving Terrorism Behind

Individual and Collective Disengagement

Edited by Tore Bjørgo, Norwegian Institute of International Affairs (NUPI), Oslo, Norway and John Horgan, Pennsylvania State University, USA

This new edited volume expands our understanding of the processes by which individuals and groups disengage from terrorism.

This book uses empirical data to explore how and why individuals and groups disengage from terrorism, and what can be done to facilitate it. The work also presents a series of case studies of disengagement programmes, from Colombia, northern Europe, Italy, Yemen, Saudi Arabia, Indonesia, Singapore and Malaysia, comparing and assessing their various strengths and weaknesses. In light of the lessons learned from these cases, this book describes and explains the potential for new developments in counter-terrorism.

This book will be of great interest to all students of terrorism studies; war and conflict studies; international security and politics in general; as well as professionals in the field of counter-terrorism.

Homeland Security in the UK

Future Preparedness for Terrorist Attack since 9/11

Edited by Paul Wilkinson, University of St Andrews, UK

Containing an analysis of the British government's report on the July 7th bombings this new book examines whether homeland security is striking an appropriate balance.

In the wake of the London attacks, this is a much-needed assessment of how key public and private sector bodies in the UK can prevent, pre-empt, counter and manage any future terrorist assault. Leading

scholars in the field examine the quality of these responses against a matrix of other factors (types of terrorist networks, tactics and targets of groups, etc), comparing and contrasting the UK's response with cognate states elsewhere, such as the USA and the EU. The book investigates how increased security has affected civil liberties and clearly demonstrates how both society and freedom can be protected in the twenty-first century.

It will appeal to students of terrorism, defence and security studies, international relations and political science, as well as informed general readers.

Political Parties and Terrorist Groups 2nd ed.

Leonard Weinberg, University of Nevada, Reno, USA, **Ami Pedahzur**, University of Texas at Austin, USA and **Arie Perliger**, Hebrew University of Jerusalem, Israel

Series: Extremism and Democracy

This book is the definitive guide to the topical issue of the relationship between political parties that embrace the democratic process and terrorist groups which eschew the legal and procedural strictures of democracy.

This fully revised edition continues to provide the most detailed theoretical and empirical analysis of this controversial issue, highlighting

the fluid nature of boundaries between terrorist organisation and legitimate political party. Drawing on a vast array of data, the authors examine a large number of international case studies from Italy, Spain, Lebanon, Turkey, Iran, Israel, Palestine, Peru, Argentina, Japan and Northern Ireland.

By incorporating substantial new material on ETA, Hizbollah and Hamas, this book retains its position at the forefront of the worldwide political discussion on terrorism, and continues to be essential reading for all students, academics and readers with an interest in security studies, terrorism and political violence.

Andrew Neal, King's College London, University of London, UK

Series: Routledge Studies in Liberty and Security

This book is an analysis of the concepts of 'exception' and 'exceptionalism' in the context of the politics of the so-called 'War on Terror', exploring the emergence of an array of illiberal policies and practices that are legitimated through claims about necessary exceptions to the norm.

Selected Contents: 1. The Liberty/Security Discourse and the Problem of Exception 2. Freedom and Liberty in Classical Political Theory 3. Carl Schmitt and the Politics of Exception 4. Giorgio's Agamben's Exception 5. Securitization Theory and Exceptionalism 6. Towards a Foucauldian Archaeology of the Exception 7. War on Terror or Law on Terror. Conclusion

Democratic Responses To Terrorism

Edited by **Leonard Weinberg**, University of Nevada, Reno, USA

Series edited by Peter Neumann, King's College, University of London, UK

Democratic Responses to Terrorism tackles how to protect democratic societies against terrorist violence while, at the same time, making sure that the steps democracies take to protect themselves do no fundamental harm to the rule of law and the rights of citizens. With a foreword by Fernando Henrique Cardoso, former president of Brazil, the essays here assess such

elements as the role of the legal framework, human rights, democracy and civil society, as well as international cooperation.

Global Jihadism

Theory and Practice

Jarret M. Brachman, USMA West Point, USA

Series: *Cass Series on Political Violence*

'Jarret Brachman's brilliant analysis of the ideology that inspires and sustains Al Qaeda and other violent jihadi movements will greatly enhance understanding of the threat they pose to peace and security. It is an invaluable aid for those engaged in combating the recruitment of future generations of jihadi suicide terrorists.'

Paul Wilkinson, Emeritus Professor of International Relations, University of St Andrews

'Global Jihadism is an important contribution to the literature on al Qaeda and Salafist jihadism specifically and terrorism in general... a timely and incisive analysis of the most pressing security challenge of our time.' - Professor Bruce Hoffman, School of Foreign Service, Georgetown University

Global Jihadism exposes the core doctrine and strategy of today's global Jihadist movement.

The first half of the book explores the ideas upon which groups such as Al Qaeda are built, including the concepts of Jihad, al-Wala wal-Bara, Takfir and Tawhid. Jarret Brachman exposes a genre of Jihadist strategic scholarship that has been virtually ignored in the West and helps to situate it within the broader Salafist religious movement. The second half explores the thinking and activities of Al Qaeda's propaganda machine, explaining its intricacies and idiosyncrasies. It includes case studies on the rise and fall of global Jihadist terrorism in Saudi Arabia post-9/11, and highlights the explosive results of bringing theory to bear on practice in the United Kingdom over the past twenty years. The book concludes by providing innovative strategies for combating the global Jihadist ideology.

Selected Contents: Part 1: Theory 1. Introduction 2. Doctrine and Schools 3. Ideologues 4. Strategists Part 2: Practice 5. Propagandists 6. Al-Qa'ida in Saudi Arabia 7. Global Jihadism in the UK 8. Conclusion

War, Torture and Terrorism

Rethinking the Rules of International Security

Edited by **Anthony F. Lang, Jr.** and **Amanda Russell Beattie**, both at University of St Andrews, UK

This book seeks to demonstrate how rules not only guide a variety of practices within international politics but also contribute to the chaos and tension on the part of agents in light of the structures they sustain. Four central themes- practice, legitimacy, regulation, and responsibility- reflect different dimensions of a rule governed political order. The volume does not provide a single new set of rules for governing an increasingly chaotic international system. Instead, it provides reflections upon the way in which rules can and cannot deal with practices of violence. While many assume that 'obeying the rules' will bring more peaceful outcomes, the chapters in this volume demonstrate that this may occur in some cases, but more often than not the very nature of a rule governed order will create tensions and stresses that require a constant attention to underlying political dynamics.

This wide-ranging volume will be of great interest to students of International Law, International Security and IR theory.

Selected Contents: 1. Rules and International Security: Dilemmas of a New World Order *Anthony F. Lang, Jr.* **Part 1: Rules and Practices** 2. Rules for Torture? *Nicholas Onuf* 3. Terror, Insecurity and Liberty

Illiberal Practices of Liberal Regimes after 9/11
 Edited by **Didier Bigo**, Sciences Po, Paris, France and **Anastassia Tsoukala**, University of Paris XI, Orsay, France

Series: Routledge Studies in Liberty and Security

This edited volume questions the widespread resort to illiberal security practices by contemporary liberal regimes since 9/11, and argues that counter-terrorism is embedded into the very logic of the fields of politics and security.

Rethinking Japanese Security

Internal and External Dimensions

Peter J. Katzenstein, Cornell University, USA

Series: Security and Governance

Peter J. Katzenstein's essays explore the concept of 'Comprehensive Security' which not only encompasses traditional military concerns but also domestic aspects of security. The book's focus on counter-terrorism and national security highlights a policy approach which, over decades, Japan has developed with political patience and diplomatic finesse. These

essays advocate an eclectic approach that helps in recognizing new questions and that seek to combine elements from different analytical perspectives in the exploration of novel lines of argument.

Selected Contents: 1. Japanese Security in Perspective *Peter J. Katzenstein* 2. Japan, Asian-Pacific Security, and the Case for Analytical Eclecticism *Peter J. Katzenstein and Nobuo Okawara (2001)* **Part 1: Japan's Internal and External Security Policies** 3. Japan's Security Policy: Political, Economic and Military Dimensions *Peter J. Katzenstein and Nobuo Okawara (1991)* 4. Japan's Internal Security Policy *Peter J. Katzenstein and Yutaka Tsujinaka (1991)* 5. Japan and Asian-Pacific Security: Regionalization, Entrenched Bilateralism and Incipient Multilateralism *Nobuo Okawara and Peter J. Katzenstein (2001)* 6. Immovable Object? Japan's Security Policy in East Asia *H. Richard Friman, David Leheny, Peter J. Katzenstein and Nobuo Okawara (2006)* **Part 2: Japanese and Asian Security in Comparative Perspective** 7. Coping with Terrorism: Norms and Internal Security in Germany and Japan *Peter J. Katzenstein (1993)* 8. Why Is There no NATO in Asia? Risk and the War on Terror

Edited by **Louise Amoore**, University of Durham, UK and **Marieke de Goede**, University of Amsterdam, the Netherlands

'This anthology's broad coverage of the relationship of risk to the war on terror's proliferation of surveillance is extraordinary. The work of this excellent group of scholars is innovative and compelling.' - *Michael Shapiro, University of Hawaii, USA*

'Risk and the War on Terror is filled with theoretically and empirically fascinating new contributions to our understanding of this crucially important topic.' - *Tony Porter, McMaster University, Canada*

This book offers the first comprehensive and critical investigation of the specific modes of risk calculation that are emerging in the so-called War on Terror.

Risk and the War on Terror offers an interdisciplinary set of contributions which debate and analyze both the empirical manifestations of risk in the War on Terror and their theoretical implications. From border controls and biometrics to financial targeting and policing practice, the imperative to deploy public and private data in order to 'connect the dots' of terrorism risk raises important questions for social scientists and practitioners alike:

- How are risk technologies redeployed from commercial, environmental and policing domains to the domain of the War on Terror?
- How can the invocation of risk in the War on Terror be understood conceptually?
- What are the implications of such moves for the populations that come to be designated as 'risky' or 'at risk'?
- Where are the gaps, ambiguities and potential resistances to these practices?

In contrast with previous historical moments of risk measurement, governing by risk in the War on Terror has taken on a distinctive orientation to an uncertain future. This book will be of strong interest to students and researchers of international studies, political science, geography, legal studies, criminology and sociology.

Selected Contents: Foreword: Rusing Risk *Bill Maurer*. Introduction: Governing by Risk in the War on Terror *Louise Amoore and Marieke de Goede* **Part 1: Risk, Precaution, Governance** 1. Taming the Future: The Dispositif of Risk in the War on Terror *Claudia Aradau and Rens van Munster* 2. Spatial Imaginaries: Economic Globalisation and the War on Terror *Wendy Larner* 3. Perceptions and Policy in Transatlantic Relations

Edited by **Natividad Fernández Sola**, University of Zaragoza, Spain and **Michael Smith**, Loughborough University, UK

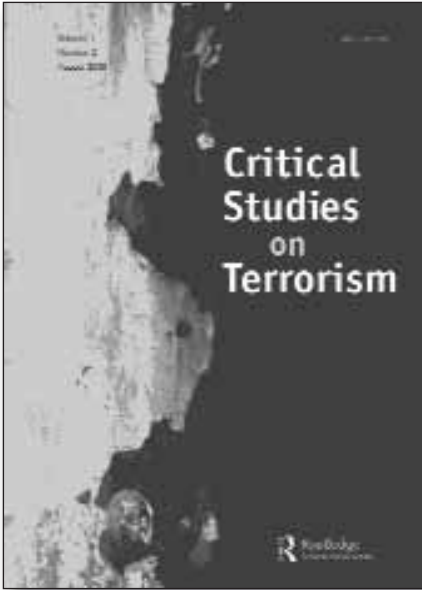

In this book experts from both sides of the Atlantic examine the recent tensions between Western Europe and the United States over such issues as:

- perceptions and misperceptions in general focusing on US foreign policy
- issues of decision-making, of implementation and alliance management
- co-operation between the U.S. and the E.U.
- the 'alliance security dilemma' and the transatlantic security community
- case studies of transatlantic relations in the 'war on terror' and relations with Russia
- the present and future of the 'western alliance'.

Providing a global and multilateral analysis from American and European perspectives and exploring fields of cooperation and competition, *Perceptions and Policy in Transatlantic Relations* will be of strong interest to students of International Relations, American politics and European politics.

Selected Contents: 1. Introduction 2. Alliances, Perceptions and Current Friction *Robert Jervis* 3. Foreign Policy and Transatlantic Relations *Rubén Herrero de Castro* 4. An American View of Transatlantic Relations *Robert J. Lieber* 5. Trends on European Foreign and Security Policy since September 2001 *Michael Smith* 6. How Transatlantic Relations Can Reinforce the EU Role as an International Actor *Natividad Fernández Sola* 7. Perceptions on US Policy, Transatlantic Relations and Alliance Security Dilemma *David García Cantalapiedra* 8. The End of the Euro-Atlantic Pluralistic Security Community? The New Agenda of Transatlantic Security Relations in the Global Political System *Carla Monteleone* 9. Terrorism and Homeland Security *Carlos Echeverría Jesús* 10. Putin's Energy Policy in European and Transatlantic Perspective *Alex Marshall*

Critical Studies on Terrorism is a new international, peer-reviewed, interdisciplinary journal starting in 2008. The journal seeks to publish quality research on all aspects of terrorism, counter-terrorism and state terror.

A key aim of the journal is to both create space for robust, innovative research on terrorism, and to encourage fruitful intellectual engagement between critical and orthodox accounts of terrorism. In particular, the editors are looking for empirical, theoretical and policy-oriented articles that recognise the inherently problematic nature of the terrorism label, employ a critical-normative perspective broadly defined, and challenge accepted orthodoxies. Research on terrorism employing methodological and disciplinary perspectives from outside the political science and international relations paradigms is especially encouraged.
